

Be Your

Own

ARTist Clinic

#1 Personalized  
Reproductive Health  
Center in America!

*Expand your family the  
way you want to!*

Located in scenic Venice  
Beach, California

Dedicated to helping grow  
families since 1995

# Our Services

*We offer an abundance  
of services for our  
clients!*

- *Egg/Sperm Purchase*
- *In-Vitro Fertilization*
- *Preimplantation Genetic Diagnosis*
- *Amniocentesis (screening implanted embryo for diseases/disorders)*
- *Embryonic Selection based on sex, physical/genetic characteristics*
- *Selective Reduction*

# Cost

Because we offer many services, the cost of one family's journey from another can be a vast difference.

Prices start at approximately \$18,000 and can go up to \$250,000 depending on the services a family opts for.

We also offer payment plans for any family in need of one because we know that assisted reproductive technology is not cheap!

Our plans range from 12 months to 10 years in installments!

# After Conception

At Be Your Own ARTist, we are not only dedicated to helping expand families, we are dedicated to helping keep them healthy and happy, which is why we assign every family a long term social worker after birth.

Our social workers that we assign to families are dedicated to help maintain happiness and wellness in families throughout every stage in their children's lives. Social workers are required to meet with families at least twice a year for all 18 years of their children's lives.

# Testimonials

The Mitchell's - 2 daughters

"We could not be happier with our results! Having two daughters through embryo donation was a scary and unfamiliar thought to us, especially because in our home country of the United Kingdom, assisted reproductive technology through genetic material donation is scarce since donors cannot be paid above a certain amount of money for their time (not very much considering the nature of the process). The Be Your Own ARTist clinic really helped guide us through this unfamiliar field and even helped match us with a social worker in the UK!"

The Cruz's - 1 daughter

"After trying for 6 years to conceive our own child, we went to the Be Your Own ARTist clinic to expand our family and we could not believe how supportive their staff was! We were apprehensive about using donor sperm and we were flustered with the many options we had, but thankfully their staff made the process really smooth for us, giving us their advice only when we sought for it. We absolutely recommend this clinic to anyone frustrated with the cutthroat nature of assisted reproductive technology!"

Caitlyn - 1 son

"I've been wanting to have children for a very long time, and I've been searching for a suitable partner to make this happen, however I realized at one point that I did not need to have a partner to have a child - I felt that I'd be socially judged for this decision though. So I decided to go to the Be Your Own ARTist clinic and it was the decision I've ever made! I never felt judged or looked down upon, through my selective reduction and embryo selection for a son with brown hair. I truly felt like the staff I interacted with cared about my wellbeing and my needs in a child."

**We have a 94%  
success rate!**

# Our Philosophy

*Our goal at Be Your Own ARTist is to make the ever-evolving, dense world of assisted reproductive technology smoother physically, mentally, emotionally and financially for those who aren't experts in the field. We want people to be able to expand their families in the way they wish to and help them adjust/thrive in their family dynamics.*
