## WHAT ELSE WE OFFER...

NYFC encourages counseling services throughout your procedure/pregnancy

General physicians are on call for medical screenings

Weekly information seminars to learn about our array of services

Connection with licensed midwives and doulas

24/7 hotline for members for all questions or concerns

# our mission

We want to empower all people, regardless of income or status, to be able to take full control of their reproductive health, and increase access to options for having a child.

Our vision is to advance reproductive equity through providing comprehensive education as well as free services to all who qualify.

The professionals at NYFC reserve their right to deny service to any person based on their expert opinion.

Factors considered in denial of service may include age, well-being of patron and of baby, number of reproductive treatments, or other.
