

Beginnings

Serving all those who wish to
conceive

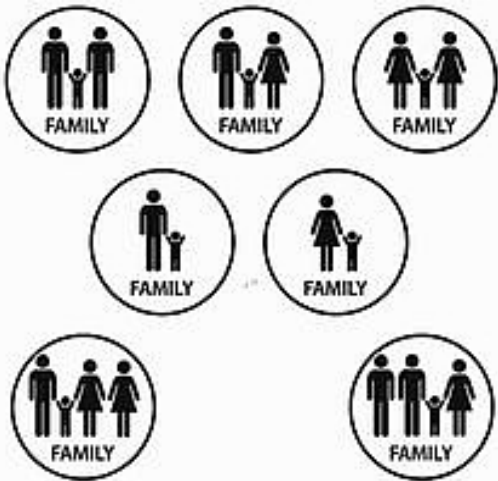

We aim to help all families
including LGBT, those
having trouble with
conception, and single
parents.

Our Philosophy

Here at Beginnings, we aim to provide all families of any shape and size equal opportunity to conceive. We believe everyone should have the right to bear children and we are here to support that dream. We feel everyone should feel safe and comfortable during this exciting time, so our clinic ensures the best care on the east coast. Our large selection of services are sure to meet the needs of anyone looking to start a family. Even if you would like to learn more about starting a family, we are here to help. Our clinicians are all of the highest caliber and our facilities are held to high standards of cleanliness and comfort to make for an easy beginning to your new family!

Services

Since we cater to all types of families, we also offer a wide array of services.

- A large selection of healthy egg and sperm donors
- Trusted surrogates
- IVF specialists
- Prenatal care
- Postnatal care
- Egg and Sperm freezing
- Fertility education
- Counseling

Costs

Since each service has a different price range, usually in the \$10,000 bracket, and since we are aware that IVF cycles could be many depending on our patient, we do take most insurance and do our best to make our services accessible to all those in need.

Success Stories

I love Beginnings! My husband and I felt so comfortable working with the doctors and we were able to find a perfect egg donor, we could not be happier and will be conceiving our second child with Beginnings!

-Margaret J.

My husband and I were very ready to start a family. We were able to find an amazing surrogate through Beginnings, and an egg donor that met all our needs.

Using my sperm, we conceived a beautiful child and are so grateful for the help from Beginnings. They were so supportive and caring through the whole process.

-Evan K.
