

YouTube (or online video, Vimeo, etc.)

- ▶ It's where you find the next "it" video—but what else can you do with it? Share, comment, annotate, and more!
- ▶ Embed the results on our ePortfolio, and get ready to give the group a brief how-to!

GarageBand

- ▶ This audio recording and editing software is already installed on your Mac.
- ▶ Create some audio for us and upload it to the ePortfolio, or write out how to do something in this application in an ePortfolio post.
- ▶ <http://www.apple.com/ilife/garageband/> might help you get started!

iMovie

- ▶ This video editing software is already installed on your Mac.
- ▶ Create some video for us, and upload it to the ePortfolio. Then get ready to show the rest of us how!
- ▶ <http://www.apple.com/ilife/imovie/> might help you get started.

Photo Booth

- ▶ This image and video capture software is already installed on your Mac.
- ▶ You can take video or photos, and also do some fun editing!
- ▶ Upload your results to our ePortfolio, then get ready to show the rest of us how it's done!

Jing

- ▶ Download this free screen capture software at <http://www.jingproject.com/>.
- ▶ Build a sample screen capture and add it to our ePortfolio.
- ▶ Then get ready to show us how, and to give us your ideas on how this could be useful!

Video Conferencing (Skype/iChat/Gtalk/other)

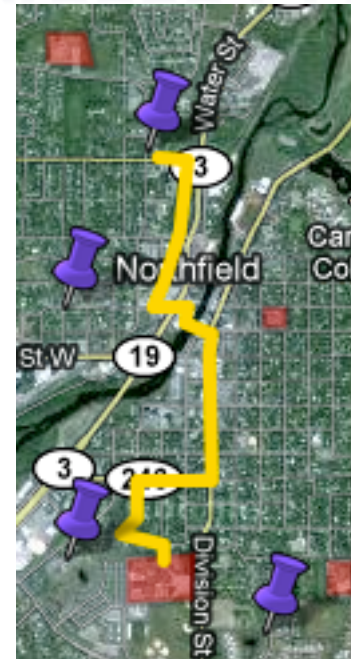

- ▶ What are some of the latest innovations in video conferencing?
- ▶ Pick one or more of these tools and get ready to show us what's new and cool.
- ▶ Write up a short how-to for the rest of us in the ePortfolio!

Maps and Timelines

- ▶ Some of the latest web apps involve mapping out personal knowledge—both via space and over time!
- ▶ Pick one or more of these tools at the right and get ready to show us what's new and cool.
- ▶ Embed a personalized map or timeline on the ePortfolio!
